PROJECT PETITION

TO THE RICE CREEK WATERSHED DISTRICT

1. Ramsey County hereby petitions the Rice Creek Watershed District per M.S. 103D.705 to implement a project to improve the downstream end of Judicial Ditch No. 1 beginning at Hugo Road and extending upstream to Portland Avenue, located within the Rice Creek Watershed District and within White Bear Township.
2. The proposed project is based on recommendations contained in the "Comprehensive Stormwater Management Plan East Bald Eagle Lake Watersheds" (TKDA 1980) as well as any more recent ditch survey information available to the Watershed District. Proposed improvements include channel grading to achieve a positive slope throughout this ditch section and clearing of debris. Several culvert modifications are also necessary. An additional requested improvement is the replacement of twin culverts at Portland Avenue.
3. The location of the proposed project is shown on the attached map which is made part of this petition.
4. The project is needed for several reasons:
 - A. It will address the potential for flooding along this section of Judicial Ditch No. 1.
 - B. Maintenance of culverts will be improved by changes in the ditch profile and removal of debris.
 - C. The culvert crossing at Portland Avenue is currently a hazard due to the steep ditch cross section and also due to the pipes which are too short and possibly structurally unsound.
 - D. It is conducive to public health, convenience and welfare.
5. The petitioner will pay all costs and expenses that may be incurred in case the proceedings are dismissed or for any reason no construction contract is let for the project. The petitioner may dismiss the Petition upon payment of costs and expenses.

THIS PETITION IS RESPECTFULLY SUBMITTED FOR YOUR CONSIDERATION
DATED THIS 24th DAY OF AUGUST, 1993.
