

# SAINT PAUL WATER WORKS.

We certify that this map correctly represents the Proposed line of the St Paul Water Company's Canal, as surveyed by us in the months of January February & March A.D. 1869  
 Curtis & Halsted

The land on this sheet proposed to be taken for right of way is two rods in width, - one rod on each side of the line drawn from Vadnais Lake to Genais Lake.  
 The courses given are magnetic & the distances are marked in feet

All on this sheet is in Towns 29 & 30 N. Range 22 W.

On this 7th day of July 1869 before me came personally James Hilfillan to me known to be the President of the Saint Paul Water Company, and D. L. Embree and J. D. Halsted to me known to be the surveyors who made the survey for the line of the works of said Company, as proposed to be extended, and of the line of said works heretofore located as such line is proposed by said Company to be re-located, and who made the map of such survey and the said James Hilfillan President as aforesaid, duly acknowledged that the aforesaid map of eight sheets numbered from one to eight inclusive of which this is number four was caused to be made by said Company, for the purpose of showing the location of the line of the works of said Company, as proposed to be extended, and also the location of the line of such works heretofore located, as proposed to be re-located, and the lands necessary to be taken for such extension and re-location, and that the same correctly show the location and re-location of such line and such lands necessary to be taken, and said D. L. Embree, and J. D. Halsted each acknowledged that they made such survey, and maps for said Company for the purpose aforesaid, and that said map correctly shows the location of the line of said works, as proposed to be extended, and of such line heretofore located as it is proposed to be re-located, and of the lands necessary to be taken for such extension, and relocation
