SCOPE OF WORK & LIMITATIONS.

- Showing the length and direction of boundary lines of the legal description listed above. The scope of our services does not include determining what you own, which is a legal matter. Please check the legal description with your records or consult with competent legal counsel, if necessary, to make sure that it is correct and that any matters of record, such as easements, that you wish to be included on the survey have been shown.
- Showing the location of observed existing improvements we deem necessary for the survey.
- Setting survey markers or verifying existing survey markers to establish the corners of the property.
- 1667 Upper Afton Road property has been completed without the benefit of a current title commitment. Therefore, this survey does not purport to show any easements or encumbrances other than the ones shown herein.
- We have shown the road easements per the documents provided. It appears as though the starting point of these documents are based on a fractional section and the solution to that fractional section may have differed from the statute guided solution that we use. Therefore these easements don't really follow the improvements on site. Also, the easements go back to the northerly line of the old Upper Afton Road. There is not a width for the road on the Auditor's Subdivision and it's not clear in the description where Old Upper Afton Road is derived from.
- Also note that the Auditor's Subdivision as partted appears to be along the subdivided section lines but there are rows that may control the interior line of the subdivision that differ from the section breakdown lines. This has caused issues in the descriptions as the descriptions are were provided recte from both the section breakdown lines and the Auditor's Subdivision.
- Note that all building dimensions and building dimensions to the property lines, are taken from the siding and/or stucco of the building.

STANDARDS/SYMBOLS & CONVENTIONS.

- Denotes 1/2" Inside Diameter iron pipe 14" in length with plastic plug bearing State License Number 42379, set, unless otherwise shown.
