Attached herewith are 5 sheets of descriptions for walkways and stairways located within the boundary lines of the First Federal Saving and Loan Association site.

Also, there is a large drawing sheet that delineates each description attached herewith.

The parcels of land are for public use as an easement which is limited in height vertically as well as horizontally without overlapping either way in space.

The areas included herein are in accord with a general marked up plan as furnished by the Housing Authority, for ~~H and RA~~ concourse credits.

Each area has been measured in the field under my direct supervision to provide as built distances and heights.

All areas are calculated to the nearest one square foot for each parcel as shown.

Total Area is 624 Sq. Ft., more or less which includes a single cross section of the stairwell.

To the best of my knowledge, each parcel is subjected to whatever encroachments or conditions in the form of doorway, pipes, or columns that exist in space therein.
