

PETITION FOR CHANGE OF ROAD

File #1134

Oct. 6, 1882

STATE OF MINNESOTA)
COUNTY OF RAMSEY) SS
TOWNE OF WHITE BEAR)

To the Honorable the
Board of County Commissioners,
for Ramsey County, Minn.

Gentlemen:

Your petitioners respectfully represent to your honorable Board that they are the owners and occupiers of the Northwest Quarter of Section Twenty-six, Town Thirty (30), Range 23 situated in the Town of Mounds View in said County of Ramsey, and of the land adjacent thereto and in the neighborhood thereof, and that they are all dwellers in said neighborhood and have frequent occasion to travel the public roads thereabouts.

That there has been laid out and partly constructed on said quarter section a public road commencing half way between the Southwest and the Northwest Corners of said quarter section and extending diagonally to the Northeast corner of said section. That said road is still in an unfinished state, ground having been broken by the plow thereon last fall and that nothing has been done since then for the completion of said road and that there is and is likely to be but little travel on said road.

Your petitioners further respectfully represent that by reason of said public road being so located diagonally across said quarter section as aforesaid it is of great injury and damage to the owners of said quarter section whose land is adjacent to and cut into by said road and that should the road be continued along the West side to the North side of said quarter section and from thence to the Northeast corner, its present terminus on said section, it would increase the length of the road but a trifle and equally subserve the interest of the public.

Wherefore your petitioners respectfully pray your honorable Board that so much of said public road as runs through said quarter section be abandoned and that said road be changed so as to reach the Northeast corner of said quarter section by running parallel with and on the West and North section lines of said quarter section.
