The County Commissioners met on September 3, 1895, a copy of the report of the committee appointed by us at our last session to examine the road hereinafter named, having been duly returned by which said report it appears that the said committee met at the time and place designated in our order of appointment and examined the highway proposed to be opened as per above description in said petition, and recommended that the prayer of the petitioners for the laying out of said highway be granted, and a majority of the board of county commissioners being of the opinion that the public interest would be promoted by the laying of said highway and that the laying out of said road would be of sufficient advantage to the county to warrant the paying of the damages hereinafter assessed, we do hereby order and determine that the prayer of said petitioners be granted, and that a highway be and is hereby laid out according to the description above given, which is hereby declared to be a public highway and the Auditor is hereby directed to notify the Supervisors of the several towns through which such highway is laid out that they cause so much of said highway as lies in their respective towns to be opened without delay.

We have assessed the damages sustained by reason of the laying out of said road to the lands over which the same passes and to the owners thereof, as follows, one dollar (\$1.00) for each and every one hundred feet on each side of the road and benefits at the same rate.

Given under our hand this \_\_\_\_\_ day of \_\_\_\_\_ A.D. 1895.
